

HLTAID001 Provide Cardiopulmonary Resuscitation

TCP TRAINING

COURSE DESCRIPTION

Learn the skills & knowledge required to perform Cardiopulmonary Resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) guidelines.

Effective CPR knowledge can SAVE A LIFE! Past Training Unlimited students have used their CPR skills to sustain a life until medical help arrived.

SKILLS GAINED

- Respond to an emergency situation
- Perform CPR on adults and infants
- Manage an unconscious breathing casualty
- Communicate details of the incident

YOUR ASSESSMENT

- Pre-learning assessment
- Workshop based learning
- Practical assessments

YOUR COURSE

- Save time by completing pre-learning & assessment ONLINE.
- Spend 3.5 hours on practical training in class.
- You will be issued with a Statement of Attainment for HLTAID001 Provide Cardiopulmonary Resuscitation (CPR).

ENTRY REQUIREMENTS

Learners must have demonstrated interest in the course. There are no prerequisites for this course! CPR skills are to be demonstrated on a manikin that has been placed on the floor.

We operate classes across Victoria. Have a group of 10 or more or a workplace area suitable for training, our trainer will come to you and contextualise the training based on your company's unique requirements.
